Features Overview Best Pricing on Hosting Packages

High quality web hosting at the best pricing available! Our hosting packages includes everything you need to have a complete online presence. We host a broad range of sites including personal sites, business sites and large portals that receive millions of monthly hits!

Microsoft FrontPage Server Extensions

FrontPage extensions are installed on our web servers. This allows you to take advantage of the dynamic features and publication wizard in Microsoft's web page authoring software.

Anti-Spam System

Every web hosting account comes with complete SPAM protection using three different antiSpam systems (Internal MailGuard™ logic system, SpamAssassin™, and user definable rules-based spam filtering). The use of these various systems is designed to help you eliminate and remove up-to 98% of junk mail and viruses from your inbox.

Connectivity

Our servers are connected to multiple Internet backbones, ensuring that our servers are in close proximity to you and your visitors. Because we are connected directly to one of the largest backbones, your website will always be available and fast for visitors to visit. Our network uptime has constantly been above the industry margin with an aggregate monthly availability of 99%.

Customizable Control Panel

Your own personal control panel includes all the powerful features you'll ever need. We use CPANEL®; and DIRECTADMIN ®; the industry's best control panel system.

Fantastico De Luxe

Fantastico De Luxe is the leading autoinstaller for cPanel servers. With more than 10.000 installations, it provides more than one million end users the ability to quickly install dozens of the leading open source content management systems into their web space.
