

Dedicated Server

Fully Managed Dedicated Server

Managed servers are perfect for high traffic websites, large businesses, or to start your own web hosting service.

Within Fully Managed Dedicated Server bring you to focus on your website instead of managing your dedicated.

Our managed include Level-3 Support, network monitoring, software assistance.

A dedicated server allows you to manage all aspects of the environment including operating system configuration, applications, and permissions.

With one of the control panels available for purchase, you can control all account related functions from one central location.
